Product features

✔ Cambodian ID Extraction

Our state-of-the-art system effortlessly extracts crucial information from identification documents, streamlining data capture processes and enhancing accuracy.

✔ MRZ Recognition

Say goodbye to manual data entry. Unlock efficiency with our MRZ recognition. Seamlessly extract data from passports, IDs, and travel documents, making verification processes a breeze.

✔ Face Matching

Our advanced facial recognition technology ensures precise identity validation by comparing live faces with stored images.

✔ Liveness Detection

With our robust liveness detection capabilities safeguard against fraudulent attempts by confirming the authenticity of live interactions.
